Dear Resident / Ratepayer

**Advice - 1080 Wild Dog / Fox Baiting & Ejector Poisoning Program
27 August to 14 December 2018**

A 1080 baiting and Canid Pest Ejector (Ejector) poisoning program will be carried out targeting wild dogs and foxes on:

«STP».

This 1080 wild dog and fox bait and ejector campaign is part of a coordinated program with National Parks & Wildlife Service and other public land managers, to protect endangered fauna species and livestock from predation.

The program will commence on Monday 27 August 2018 and will cease on Friday 14 December 2018, where all ejectors and remaining baits will be collected and disposed of accordingly. This program will be undertaken strictly in accordance with the conditions of the relevant Pesticides Control Orders and labels.

It is recommended that if domestic dogs are in the immediate area they are to be locked up, restrained or effectively controlled as non-target animals including domestic dogs and cats may be affected.

If you need further information about this matter, please contact me on (02) 4429 3630. Please quote Council's reference 3690E (D18/278028).

Yours faithfully

Leanne Richards
Parks Programmes Officer
