Dear Property Owner,

Request Contact Details – Woollamia Pressure Sewer System

Reference is made to correspondence dated 19 November 2018 advising you of Council's resolution to connect your property to town sewerage by way of a pressure sewer system. That correspondence also included a brochure providing some basic information on pressure sewer systems and a copy of Council's Pressure Sewer System Policy. It is important to read these documents to gain an understanding of what the Scheme comprises, the process of establishing such a Scheme and the potential costs to individual land owners.

Public Works Advisory (PWA) have been engaged by Council to assist with the management of the project and consulting firm, Pressure System Solutions PL have been engaged to undertake the design of the Scheme.

As the Scheme proceeds to detailed design it is important that we establish your preferred contact details. Detailed design includes the need to discuss with every property owner their preferred location of infrastructure on their properties.

Please find enclosed a form requesting your preferred contact details and a return envelope. Alternatively, you could email your preferred contact details directly to Brooke Aldous in Shoalhaven Water at brooke.aldous@shoalhaven.nsw.gov.au

Your early attention to this would be greatly appreciated to ensure clear communication is established from the outset of this important project (please note, if you have already provided your contact details you do not have to do it again as it has been recorded).

Should you require further information regarding this please contact Brooke Aldous on 4429 3277.

Yours faithfully,

Robert Horner
Water Assets Planning and Development Section Manager
