

Shoalhaven Coastal Management Scoping Study

We welcome you to have input and be part of the future management of Shoalhaven’s coastline and estuaries!

Come along to a community drop-in session where you can raise your questions, hear from others and make your contribution to the overall scope of future plans for our coast.

The first phase of the project is the development of a Scoping Study for the City.

This will guide the development of coastal management programs for the open coastline, St Georges Basin, Lake Conjola and the lower Shoalhaven River and future programs for our estuaries.

We want to hear from you about:

- How you use and value our coast and estuaries
- Your key local coastal management issues
- How you would like to be involved in shaping your local coastal management program

You are invited to drop in any time between 5pm and 7pm at the following locations to provide YOUR input to the CMP Scoping Study:

Ulladulla Civic Centre

Tuesday 24 September 2019

St Georges Basin Community Centre

Wednesday 25 September 2019

Nowra Showground Pavilion

Thursday 26 September 2019

Lake Conjola Community Centre

Tuesday 1 October 2019

Sussex Inlet Community Centre

Wednesday 2 October 2019

Shoalhaven Heads Community Centre

Thursday 3 October 2019

If you can't attend a drop in session you will be able to provide YOUR input by completing an online survey or submission by visiting **getinvolved.shoalhaven.nsw.gov.au/CMP**
