

PLANNING PROPOSAL 23 (PP23) 2019

If you think (or know) you made a submission or written comment to Council on this proposal last year - that submission is now void!

There is nothing wrong with your submission or comment it just has to be re-submitted with THIS YEAR'S DATE!

If you haven't yet made comment, it is very important that you do so to ensure St Georges Basin does not have 4 storey flats.

Your comment can be sent either as an straight email or attachment to Council's email address council@shoalhaven.nsw.gov.au noting the Subject as 'Comment on Planning Proposal 23 2019 Anson St, St Georges Basin'

or you can visit Council's web site and submit your comment.

It is very easy either way.

Some points you may wish to use:

Comment can be just that you support the lowering of heights in Anson St, St Georges Basin because you believe ???

There are many reasons the heights should be lowered and its best to make your own comment but some reasons could include 1 or more of the following.

- * St Georges Basin is mainly 1 to 2 storey housing
- * 4 Storey buildings do not fit with the character of the area
- * St Georges Basin does not have the facilities to support the extra people that will come with the proposal e.g. motor vehicles (traffic to Princes Hwy), children's facilities, medical, schools etc
- * 13 metre heights will see 4 storey blocks of flats that will change the character of SGB area forever.
